Powering this model is the robust 3.0L Inline-6 engine featuring mild-hybrid (MHEV) technology, producing a commanding 395 hp and 406 lb-ft of torque. This powertrain, paired with a smooth 8-speed automatic transmission, enables a 0–100 km/h sprint in just 6.1 seconds. With standard Electronic Air Suspension and Adaptive Dynamics, the Defender 110 provides an exceptionally composed ride on pavement while maintaining the ability to raise the vehicle for class-leading off-road clearance. The X-Dynamic SE interior is engineered for both luxury and extreme durability, featuring unique Resist seating materials that are as tough as they are comfortable. The digital cockpit is centered around a massive 13.1-inch curved glass Pivi Pro touchscreen, complemented by the 12.3-inch Interactive Driver Display. Occupants enjoy executive-level comfort with standard heated and cooled 14-way memory front seats, a heated steering wheel, and a sliding panoramic roof that provides an immersive view of the surroundings. The 14-speaker Meridian™ Surround Sound System ensures a premium acoustic experience, whether you're navigating urban jungles or remote trails. Visually, the X-Dynamic SE distinguishes itself with a more aggressive aesthetic, featuring a Black Contrast Roof, Satin Silicon Silver skid pans, and 20-inch Satin Dark Grey wheels. Capability remains at the

forefront with the standard Terrain Response 2 system, which automatically optimizes vehicle settings for any surface, and a twin-speed transfer box for low-range rock crawling. Safety and convenience are bolstered by a standard 3D Surround Camera with ClearSight Ground View, allowing you to see "through" the hood to the terrain below. With its 8,200 lb towing capacity and legendary 4WD DNA, the 2026 Defender 110 P400 X-Dynamic SE is the ultimate tool for the modern adventurer.
