## Description

Additional options included: Heated Electric Intelligent Fold 3rd Row Seat Pack 22" Wheels - Gloss Black (Style 5124) Ebony, DuoLeather Seat Trim Body-Coloured Roof Tow Hitch Receiver Black Roof Rails The 2026 Land Rover Discovery P300 Dynamic SE is the entry point into the full-size Discovery lineup, offering a refined blend of premium luxury and genuine off-road capability. Powered by a responsive 2.0L Ingenium Turbocharged engine, it produces 296 hp and 295 lb-ft of torque, allowing the vehicle to feel surprisingly nimble with a 0–100 km/h time of 7.3 seconds. A standout standard feature for the 2026 model year is the Electronic Air Suspension, which provides a cloud-like ride quality on pavement and allows the vehicle to rise for high-clearance off-roading or lower for easier loading of passengers and cargo. Inside, the Dynamic SE trim creates a sophisticated atmosphere with DuoLeather upholstery and the signature "stadium seating" layout that provides 7 full-size seats. The cockpit is dominated

by the 11.4-inch Pivi Pro curved glass touchscreen, featuring a "forever-connected" interface with wireless smartphone integration and over-the-air update capability. For the Canadian climate, the P300 is winter-ready with a heated steering wheel, heated front and rear seats, and an advanced Three-zone Climate Control system to keep all rows comfortable. Practicality is a hallmark of the Discovery, featuring a powered tailgate and a massive cargo capacity of up to 2,391 L with seats folded. Despite its refined road manners, it remains a true Land Rover at heart, equipped with Terrain Response 2, which automatically selects the best drive mode for snow, mud, or sand. Safety is equally comprehensive, featuring Adaptive Cruise Control, Blind Spot Assist, and a 3D Surround Camera with Wade Sensing for confident water crossings. With a 6,000 lb towing capacity and striking 21-inch gloss black wheels, the 2026 P300 Dynamic SE is the ideal choice for families seeking a versatile and prestigious luxury SUV.
