For the Canadian market, the P400 powertrain is an engineering marvel, utilizing a 395 hp turbocharged inline-six with Mild Hybrid (MHEV) technology. This setup provides the silky-smooth, effortless acceleration expected of a flagship, while the standard All-Wheel Steering—which allows the rear wheels to turn up to 7 degrees—gives this full-sized SUV the agility of a compact vehicle in tight urban parking or narrow mountain passes.

Located at Land Rover Vancouver
